

Quality and Environmental Policy

Gervasoni Spa wants to:

Consolidate a close collaboration with existing and potential Customers, proposing itself as a leader in the supply of high precision machined and turned components.

Support the Customer from a technical point of view

Underline a continuous improvement of the Company know-how and of all production processes, in order to be increasingly competitive.

Involve its Suppliers in such a way as to make them feel like real partners

Focus special attention on Environmental aspects, minimizing its impact through the use of the latest technology during the production cycle

Upgrade all production units to guarantee full respect of the environment

Apply the concepts of Company Quality to all the staff, through adequate training processes, good motivation and incentives.

Continuously encourage the Environmental awareness of its staff, sub-contractors and suppliers

Encourage the waste management by promoting its recycling

Promote a methodic reduction of energy consumption, including the Staff mobility

Consolidate and continuously improve its Quality and Environmental systems, in compliance with the IATF 16949 and UNI EN ISO 14001 recommendations
